**Issue Date:** 31.12.2025  
**Certificate Number:** CCP/1451E

## EASYFLYERS Logistics limited

Lufthansa Group hereby guarantees the purchase of **2,145 kg** of Sustainable Aviation Fuel on behalf of **EASYFLYERS Logistics limited** resulting in an emission mitigation of **7,566 kg CO<sub>2</sub>e\*** in comparison to conventional (fossil) jet fuel based on a Well-to-Wheel assessment. This fuel has not been derived from Palm Oil Mill Effluent or Palm Fatty Acid Distillates and the resulting mitigation is exclusively allocated to the aforementioned company. The fuel and the fuel manufacturer comply with the requirements of the Renewable Energy Directive. Lufthansa Group reserves the right to account for this fuel in the EU ETS. Double-Counting is excluded.

Independent auditor for verification of this certificate and the associated calculation principle

\* Includes CO<sub>2</sub>-equivalents from production, transport and distribution of the fuel; from combustion CO<sub>2</sub> is included, other substances are excluded

\*\* SAF counter indicates the fraction of the batch allocated to the certificate when numbering each kilogram of SAF in the batch consecutively.

### Calculation based on:

Default TTW emission factor fossil fuel and heating value acc. to ISO 14083; density acc. to supplier information or ISO 14083 if not available; default WTW emission factor fossil fuel acc. to GLEC 3.1; actual WTW emission factor SAF acc. to Proof of Sustainability
